

Be CAREFUL!

Don't run in front of the fire: it will smell you and chase you.
Run to burnt grass — you'll be safe there.

If yurnara, be careful. The fire will smell you running and get wider, spread out. Mostly in a big wind. Larlinga, all right.
Watch out for burnt grass, parrawa or nyurnma.

yurnara
larlinga
parrawa
nyurnma

dense grass
when there is no wind
area of grass with moderate regrowth
recently burnt ground
